★★★★★ *“I have had many doctors in my lifetime but feel that Dr. Arana-Domondon far exceeds any of my expectations for medical care. She listens to her patients. She doesn’t just talk ‘at them.’ She is thorough, efficient, and always on top of every medical issue...I cannot say enough good things!”*

★★★★★ *“Absolutely great place, my face is so beautiful after Voluma injections. My Dr. is amazing. A Master Physician injector and artist at the same time. She fixed my face from previous work done by another doctor. I’m grateful and very happy with all she did for me. Strongly recommend this place.”*

★★★★★ *“Dr. Domondon truly cares for her patients. She would take time listening to my pain and complaints. She is very thorough in her exams and orders necessary tests when needed. She is worth waiting to see for she’s always able to help me every time I come to visit. It is just sad that we have to move and but I hope to find a doctor just like her in my new location.”*

★★★★★ *Dr. Domondon is truly a Master Physician injector, I am so happy with my results! I had told her about my previous experience and she tailored exactly what treatment I would need and even personally followed up with me about my Botox treatment. She and her whole staff are an amazing team. Every time I go there, they are always so welcoming and on top of everything! Also, if you are looking for skincare and facial treatments you MUST go see Kathy.*
